Marlene Porsche Graduate School of Neuroeconomics
Annual Symposium

Friday, 20 September 2019 | University of Zurich
Marlene Porsche Graduate School of Neuroeconomics
Annual Symposium

Friday, 20 September 2019 | 10:15 AM to 6:00 PM | University of Zurich | Schönberggasse 1, 8001 Zurich | Room G-21

The second annual symposium will highlight the interdisciplinary research conducted by doctoral students in the Marlene Porsche Graduate School of Neuroeconomics, spanning the areas of economics, neuroscience, and psychology.

In addition, keynote lectures by Professors Giuseppe Ugazio of the University of Geneva and Cendri Hutcherson of the University of Toronto will discuss how humans incorporate and balance financial, moral, and social values into their decisions.

Program
Annual Symposium

09:30  Welcome coffee

10:15  Welcome & Introductions
       Todd Hare, University of Zurich

10:30  Moral and financial values in the brain
       Giuseppe Ugazio, University of Geneva

11:30  A neuro-computational approach for quantifying the strength of social norms
       Claire Lugrin, University of Zurich

12:00  Lunch

14:00  Reduced neural satiety responses in obese women
       Susanna Gobbi, University of Zurich

14:30  Interpersonal belief updating in borderline personality disorder
       Niklas Bürgi, University of Zurich

15:00  Reward statistics induce efficient neural recoding
       Jonathan Schaffner, University of Zurich

15:30  Coffee break
Program
Annual Symposium

16:00  **Who is a reinforcer, who is bayesian? Incentives and behavioral heterogeneity in belief updating**  
Michele Garagnani, University of Zurich

16:30  **How we decide and why it matters: Insights from computational modeling**  
Cendri Hutcherson, University of Toronto

17:30  **Closing remarks**  
Ernst Fehr, University of Zurich

17:45  **Apero**
